

Associate/ Full Professor, Operations Management
Apply now, Job no: 492763
Work type: Faculty (Tenure-Track)
Location: Winter Park, FL
Crummer Graduate School of Business at Rollins College

Position Summary:

The Crummer Graduate School of Business at Rollins College in Winter Park, Florida offers a unique opportunity to qualified applicants in operations management with a passion for outstanding graduate teaching. A Ph.D. in operations management or a closely related field from an AACSB accredited school is required. The position commences in August 2019. Because we are a graduate-only business school, preference will be given to candidates that have experience and a strong desire to teach MBA students in our full time, evening, and executive MBA programs. We also have a high quality Executive DBA program and the successful candidate must be willing to actively participate in teaching, mentoring, and conducting research with EDBA students. A professional certification (e.g., CPIM, PMP) and or experience working within industry is very desirable, as is expertise in both operations management and supply chain management. Well-qualified candidates at the full professor rank may also be considered.

We are a heavily mission-driven school, and the mission of the Crummer Graduate School of Business at Rollins is to develop global business leaders and innovators through a high-quality, integrated, experiential education that prepares them to add significant value to their organizations and communities. The Crummer School only hires experienced faculty with established teaching and research records, including many award winning graduate teachers. We especially value individuals who also bring managerial industry experience as part of their background. We do not have departments and operate as a faculty of the whole. This model lends itself exceptionally well to a level of nimbleness in innovation that is rarely seen in academe, and also to a cross-disciplinary approach in the classroom and in research collaboration. Classes are small and faculty build close professional relationships with our students.

Teaching: Crummer School faculty members take great pride in the fact that we are ranked #1 in Florida by Forbes. Also, for three years in a row Leadership Magazine has ranked our MBA programs #1 in the country for Leadership Development. We attract excellent MBA students at all levels – executive, professional, and full-time (which we call Early Advantage MBAs). Our students are eager to learn from our accomplished faculty and the prestige factor of holding a Crummer MBA is very high especially in Florida. Hence, outstanding MBA teaching is essential to success as a member of our faculty. Executive DBA students are top-level executives or seasoned entrepreneurs who take a variety of seminars in residence and complete a dissertation and other research requirements during their three-year program, affording outstanding opportunities for faculty to participate in these projects. At the Crummer School, all learning experiences are heavily applied and experiential. We do not offer undergraduate classes within the Crummer School.

Research: The Crummer faculty recognize that a broad range of applied research contributes to management practice. Cross-disciplinary collaboration is common within our own faculty and also with colleagues outside the Crummer School. An engaged scholarship model that combines managerial relevance with rigor in applied research is highly valued among our group.

Service: You will find collegiality to be one of the best parts of being a faculty member at the Crummer School. We genuinely like working together and when service needs come up it's not a burden but rather part of our strong culture of self-governance. Externally, involvement in such ways as scholarly societies, editorial boards, company engagements, and local community service is well-respected and encouraged.

Rollins College and Central Florida: Rollins is a top-tier private liberal arts institution on a par with many of the best liberal arts colleges in the Northeast U.S. Founded in 1885, Rollins was the first recognized college in Florida and is a significant force in the Central Florida community. Rollins has been listed for seven consecutive years on the Chronicle of Higher Education's list of "Great Colleges to Work For" and was named the #1 "Most Beautiful Campus" in the nation by Princeton Review in 2016. The Crummer School is fully accredited by AACSB for MBA and EDBA and Rollins is fully accredited by SACS. Winter Park is a beautiful community nestled within the dynamic Orlando metro area in Central Florida, a region that has recently been ranked #1 in the U.S. for job growth. Cost of living is very reasonable and opportunities for year-round entertainment and outdoor activities are second to none. Beyond the obvious theme park and hospitality focus, the region also has a burgeoning high tech sector including a substantial focus on simulation, and also is a leading market in health care innovation. The area is a great community for families to put down roots.

Our Values:

Rollins seeks to foster and to model a campus environment that is welcoming, safe, and inclusive to all of our administrators, faculty, staff, and students. We view differences (e.g. nationality, race, gender, age, sexual orientation, socioeconomic class, physical ability, learning styles, perspectives, etc.) not as obstacles to be overcome but as rich opportunities for understanding, learning, and growth.

Through its mission, Rollins College is firmly committed to creating a just community that embraces multiculturalism; persons from historically under-represented minority groups are therefore encouraged to apply. Rollins does not discriminate on the basis of sex, disability, race, age, religion, color, national or ethnic origin, ancestry, marital status, veteran status, sexual orientation, gender identity, gender

expression, genetic information, physical characteristics, or any other category protected by federal, state, or local law, in its educational programs and activities.
