Two Faculty Positions in Business Analytics

The College of Business at Florida State University invites applications for two tenure-track, assistant or associate professor positions in Business Analytics pending final budgetary approval. The start date is August 7, 2018. Preference will be given to candidates whose teaching and research interests focus on methodological applications in or decision-making supported by big data, data-driven methodologies, business analytics, and/or business intelligence.

Potential candidates should have a willingness to teach both graduate and undergraduate courses, including online courses. Preference will be given to applicants who have a doctorate from an accredited institution at the time of appointment. ABDs will be considered providing that the applicant can demonstrate extensive progress toward the completion of the dissertation, as well as a clearly articulated program of research. Current assistant and associate professors with a track record of scholarship and teaching excellence are strongly encouraged to apply.

The Department of Business Analytics, Information Systems & Supply Chain offers programs with a cross-disciplinary focus that give students the skills to bridge functional business areas by applying expertise in analytics, information systems, and/or supply chain management. The department engages industry and other stakeholders to keep the curriculum relevant and to provide opportunities for interaction between students and industry executives.

Florida State University offers an excellent research environment, with competitive teaching loads, generous research and teaching support, and competitive salary and benefits. The university is located in Tallahassee – Florida’s capital city; a vibrant community that offers exceptional living conditions, cultural activities, and recreational opportunities. Florida State University is a Carnegie research-extensive university and one of only two designated preeminent universities in the State of Florida.

Our initial screening of applications will begin immediately. Priority will be given to applications received on or before October 15, 2017. Applications will be accepted until the position is filled.

Qualified candidates should submit a letter of application, current vitae, and three letters of reference to (applications may be submitted electronically):
