

**MEF UNIVERSITY
FACULTY OF ENGINEERING**

Industrial Engineering Faculty Position

The Department of Industrial Engineering at MEF University invites applications for a full-time faculty position at all ranks to start in Spring 2017. The candidate is expected to hold a Ph.D. degree in Industrial Engineering, Operations Research, Management Sciences or in a closely related field.

Candidates should demonstrate potential for outstanding research and the promise of excellent teaching at the undergraduate and graduate levels. The successful candidate will be expected to develop a program of funded research in his or her area of expertise. Faculty duties include research, teaching at undergraduate and graduate levels and supervising undergraduate and graduate students. The department welcomes candidates who preferably have background and interests in one or more of the following areas: data analytics, manufacturing, supply chain management, simulation, stochastic processes, and health care.

MEF University is a private non-profit foundation university in Istanbul, Turkey, established in 2012. The university aims to become a cutting-edge research university with world-class scholars and educators. The language of education is English and the teaching method employed is primarily the “Flipped Classroom” model, where classes enable an active learning environment and develop systems-thinking and problem solving skills in the students. The prospective faculty members are expected to implement the Flipped Classroom pedagogy. More information about the department and the university can be found at <http://www.mef.edu.tr/>.

Curriculum vitae should be submitted alongside a teaching statement, a research statement, and names and contact information of three references to the recruitment chair, Prof. Erhan Erkut (erhan.erkut@mef.edu.tr). Review of applications will continue until the position is filled.
