

The Massachusetts Institute of Technology (MIT) Sloan School of Management in Cambridge, MA invites applications for a tenure-track faculty position in the broad area of Operations Research and Statistics beginning July, 2018 or as soon thereafter as possible. Applicants should demonstrate the potential for research and teaching excellence in any the sub-fields of Optimization, Data Science, Analytics, Statistics, and/or Operations Research. We are especially interested in candidates who can build a strong methodological research base, contribute to application areas of high impact, and be a successful teacher in our undergraduate, MBA, and/or PhD programs. Duties will include teaching undergraduate and graduate level courses. Applicants should possess or be close to completion of a PhD in Operations Research, Statistics, Industrial Engineering, or a related relevant field by the start of employment. Applications must include an up-to-date curriculum vitae, three letters of recommendation, a personal statement describing research experience and aspirations, and a personal statement describing teaching aspirations and any teaching experience. Research papers should also be included if available.

Applications will be reviewed beginning on December 1st, 2017. All materials should be submitted by that date via this link:
