

4th POMS Applied Research Challenge (amended Jun 12, 2019)

The Production and Operations Management Society (POMS) invites submissions to the **4th POMS Applied Research Challenge**. This biennial competition was established as a way to encourage POMS members (faculty and students) to conduct rigorous applied research that is innovative and relevant to practice. The previous editions of the competition took place in 2014, 2016, and 2018, and they were highly successful (see [past winners](#)).

The 4th edition of the competition is underway and for that purpose POMS has formed a Practitioner Judge Panel composed of recognized practice leaders: **Corey Billington** (Founding partner, e3 Associates; former Vice President, HP; University of Wyoming); **Srinivas Bollapragada** (Chief Engineer, GE Global Research; Editor-in-Chief, Interfaces); and **Dino Petrarolo** (CEO, Kayema Energy Solution; Senior Vice President, CCI Inc.). Submissions of any operations-related research topic are welcome but the work must make a convincing case of its relevance to practice.

Process for entering the 4th POMS Applied Research Challenge: Please submit your research article to POMS.ARC@gmail.com by **December 15, 2019**. The finalists and the winner will be selected after two review cycles.

1. The first review cycle will be conducted by an academic panel comprising **Felipe Caro** (UCLA, competition chair), **Feryal Erhun** (Stanford), **Srinagesh Gavirneni** (Cornell), and **ManMohan Sodhi** (City University London). This academic panel will select the finalists by February 1, 2020.
2. The finalists will be invited to present at the 2020 POMS Annual Meeting and the Practitioner Judge Panel will select the winner, which will be announced at the conference. All finalists will receive a plaque and will be invited to a fast-track submission of their work in our flagship journal: *Production and Operations Management (POM)*. The first prize is also accompanied by \$2,000 for the authors. Note that submitting the full article to *POM* is encouraged but it is not a requisite to participate in the competition.

Selection criteria: innovative ideas, rigorous analysis (empirical, analytical, or behavioral), managerial insights, implementable ideas, and impact on practice/research.

Please refer any questions to Felipe Caro (competition chair): felipe.caro@anderson.ucla.edu
