

Associate Professor (Reader) / Senior Assistant Professor (University Lecturer / Senior Lecturer) in Operations and Technology Management at Cambridge Judge Business School

The Operations and Technology Management (OTM) group of Cambridge Judge Business School (CJBS) will be seeking to fill a position at the rank of Associate Professor (Reader) or Senior Assistant Professor (University Lecturer / Senior Lecturer), subject to final approval of the post by the University Committee.

Cambridge Judge Business School is a highly ranked business school, located at the heart of an 800-year old University and within one of the most active entrepreneurship clusters in Europe. The OTM group at CJBS is collegial and ambitious, and has developed a reputation for management research that is rigorous, original and consequential, as evidenced by a strong publication record, high profile media coverage, and the strength of its PhD program. The group seeks to further increase its global visibility through research outputs, including publications in top management journals, as well as by placing its PhD graduates in academic positions in leading schools.

The ideal candidates will have a record of impactful research, as evidenced by publications in top journals and a strong paper pipeline. They will also have excellent teaching experience on premium business school degree programs (MBA; Executive MBA) and preferably on Executive Education engagements.

The OTM group at CJBS is very supportive of research with real-world impact and is particularly welcoming of candidates unafraid to tackle 'grand challenge' topics in organizations and society more widely. The members of the group are actively pursuing research topics that inform their executive teaching and, in turn, choose research priorities motivated by problems identified through executive teaching.

Depending on the experience of the successful candidate and subject to final approval of the position by the University Committee, the appointment will be made at the Reader, University Lecturer or University Senior Lecturer level, and is anticipated to start on 1 September 2018 or as soon as possible thereafter.

We offer a competitive package of benefits and salary.

This vacancy will soon be advertised on the University of Cambridge job opportunities website: <http://www.jobs.cam.ac.uk/job/> In the meantime expressions of interest can be discussed further with the OTM group head (Professor Stelios Kavadias) at s.kavadias@jbs.cam.ac.uk. Professor Kavadias will attend the INFORMS conference where he will be available for informal meetings regarding the position.
