

Mike Ilitch
School of Business

Wayne State University
Mike Ilitch School of Business
Assistant Professor of Supply Chain Management
Department of Marketing and Supply Chain Management

The Department of Marketing and Supply Chain Management at Wayne State University's Mike Ilitch School of Business is seeking to fill a Tenure-Track position in Supply Chain Management for the Fall of 2018 at the Assistant Professor level. Candidates will be expected to conduct research suitable for publication in top tier journals, teach courses in areas of interest at the undergraduate, masters, or doctoral level, participate in department and school governance activities, and perform related duties as assigned. We expect the candidate to be a fully engaged participant in the life of the Mike Ilitch School of Business. A typical teaching load is 2+2 – teaching students majoring in Supply Chain Management at the BA, MBA and/or MS levels. Salary and benefits packages are competitive. Support for conference travel and research assistance is available. For further information about the global supply chain management area see <http://ilitchbusiness.wayne.edu/supply-chain/index.php>

Requirements for the position include a Ph.D. in Supply Chain Management from an AACSCB accredited Program, or a Ph.D. in a related field, evidence of potential to publish in leading academic journals, and strong teaching skills. ABD Candidates will be considered. The ideal candidate would have interest in, or experience in, the complex manufacturing industries, including the very high tech automotive industry. Candidates with interests in logistics, purchasing, or operations will be considered.

About Wayne State University, the Mike Ilitch School of Business, and the Global Supply Chain Management Program

Wayne State University is a 27,000 student premier, public, urban research university located in the heart of Detroit where students from all backgrounds are offered a rich, high quality education. Our deep rooted commitment to excellence, collaboration, integrity, diversity and inclusion creates exceptional educational opportunities preparing students for success in a diverse, global society. WSU encourages applications from women, people of color, and other underrepresented people. Wayne State is an affirmative action/equal opportunity employer. For more information, visit www.wayne.edu.

Wayne State is located in the heart of Detroit's Midtown cultural center; with easy access to the Detroit Institute of Arts, the Detroit Symphony, numerous museums, and professional football, baseball, basketball and hockey venues. Wayne State is also very close to the high tech, global auto companies headquartered in the Detroit area, with a large number of other world class manufacturer headquarters in the area; and is within two miles of Canadian border crossings to Windsor, Ontario.

The AACSB-International accredited Mike Ilitch School of Business prepares students for challenging and rewarding careers, advances the boundaries of scholarly and practitioner

knowledge, and enhances the economic vitality of the city of Detroit, the state of Michigan and beyond through its programs, research and community engagement. Established in 1946, the business school was renamed in 2015 in recognition of a \$40 million gift from Mike and Marian Ilitch. Thanks to this lead investment, a new state-of-the-art building is slated to open in the heart of the District Detroit in 2018. For more information, visit ilitchbusiness.wayne.edu. The school's enrollment for Fall, 2017 was some 4,000 students consisting of about 2650 undergrads and 1350 graduate students.

The growing Supply Chain Management Major and Program is focused on complex manufacturing and the automotive industry in particular, an industry that is very international and high tech. The program currently enrolls some 500 undergraduate students, offers an MBA concentration in Supply Chain Management with 205 students, has a Masters of Science in Automotive SCM Degree, and offers two automotive industry related SCM executive education programs on an annual basis. There are currently 8 full time SCM faculty including 6 tenure track faculty and 2 clinical faculty, with this position providing the 7th tenure track position in SCM. The Program teaches some 19 SCM courses that are regularly offered with often multiple sections of each course. The SCM Program also initiated and the School each year offers 4 two week study abroad programs in China, Brazil, Italy and Poland; oversees an automotive industry funded 22 school global case competition with 5 foreign teams included, and is involved in a joint auto industry SCM research program with an automotive industry organization.
