

Open Faculty Position
Associate or Full Professor of Supply Chain Management and Analytics

Department of Supply Chain Management and Analytics
College of Business
University of Nebraska-Lincoln

The Department of Supply Chain Management and Analytics within the College of Business at the University of Nebraska–Lincoln invites applications for a tenured faculty position at the Associate or Full Professor level. We seek outstanding candidates in all areas of business analytics, supply chain management, operations management and management information systems. We are particularly interested in individuals who are strong organizational citizens and interested in being active members of a rich academic community.

This position will have an August 2019 start date and will be an academic year (nine month) appointment. Salary, benefits, and research support are competitive and consistent with other Colleges of Business within the Big Ten. The awarding of tenure within the College of Business requires publications in top-tier refereed journals.

Applicants must have a doctorate in a supply chain management, operations management, business analytics, operations research, industrial engineering or a related field (such as econometrics, statistics or computer science). Applicants must possess an established record of publications in top-tier refereed journals and a research record commensurate with the rank of Associate or Full Professor. Applicants must also possess a demonstrated ability to teach college-level courses in business analytics, supply chain management or operations management, as well as experience teaching courses at the MBA, MS or equivalent level. Experience teaching in an online and/or blended environment is preferred. Relevant work experience in supply chain management or business analytics is also preferred.

About the department

The Department of Supply Chain Management and Analytics consists of 11 tenured and tenure-track faculty, along with one professor of practice and one full-time lecturer. The department is responsible for teaching the College of Business core courses in Operations and Supply Chain Management and Business Analytics/Information Analysis. The department offers an undergraduate major in supply chain management, as well as a minor in business analytics. At the graduate level, the department teaches courses in the MBA program, and offers certificates in supply chain management and business analytics, as well as an MS in Business Analytics.

About the Nebraska College of Business

The college is in a period of tremendous growth. Enrollments have risen dramatically in the last five years, 50 new faculty have been hired, and new resources have enabled continued faculty hiring. A new 240,000 square foot state-of-the-art College of Business building opened in the fall of 2017. Increased support for research and close proximity to thriving business communities of Omaha and Lincoln help advance the college's research goals. The college prides itself in being an open and collaborative community. Visit the CoB webpage <http://business.unl.edu/>.

About Lincoln, NE

Lincoln, population 290,000, is known for its college-town atmosphere and is the 3rd largest city in the Big Ten. Lincoln was recently named America's brightest and most affordable tech hub by Livability and a Smart Gigabit Community by the National Science Foundation-funded nonprofit U.S. Ignite. Lincoln offers the attractions and entertainment opportunities of a metropolitan area. Accolades also include: #4 best state capital to live in by WalletHub; #1 best city for new jobs by Forbes; a #2 highest quality of life ranking by The Huffington Post; and a #4 ranking in Children's Health magazine's listing of best places to raise a family. Lincoln boasts low unemployment, low cost of living, and low crime. A strong vision for growth, vibrant downtown, extensive bike trails, numerous golf courses and parks, a wide variety of restaurants, shops and museums, and top college sports teams, help make Lincoln a desirable community. How to Apply for this Position

To be considered for this position applicants should go to <http://employment.unl.edu>, requisition F_180101, click on "Apply to this Job" and complete the Faculty/Academic Administrative Form. Applicants will be required to attach three (3) separate documents in PDF or Word format: 1) A letter of application outlining their research and teaching experience and interests; 2) A detailed curriculum vita that includes information on education, qualifications, publications, teaching experience, and work experience. Evidence of teaching experience should include the title, level (undergraduate or graduate) and delivery method (in-class, online or blended) for all courses taught, along with a summary of the relevant teaching evaluations; and 3) Names and contact information for three references.

Additionally, three reference letters should be addressed to Dr. Ozgur Araz, Search Committee Chair, and submitted electronically to scmahiring@unl.edu.

To ensure full consideration, applications should be received by October 1, 2018. However, applications will be considered until the position is filled.

As an EO/AA employer, qualified applicants are considered for employment without regard to race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation. See: <http://www.unl.edu/equity/notice-nondiscrimination>.
