

**Technische Universität Berlin**

Technische University Berlin School VII - Economics and Management- invites applications for the position of a

## **University Professor - salary grade W3**

for "Industrial Production and Service Management"

### **Faculty VII**

**Reference number:** VII-656/16 (starting at the earliest possible / permanent / closing date for applications 03/02/17)

**Working field:** The candidate will hold the chair in 'Industrial Production and Service Management'. He/She has a strong interest in research, demonstrated by highly ranked publications focused on topics, such as resource-efficiency in production, networking and intelligent management of the value chain, process-oriented innovation and integration of production and services, and/or flexible production-systems for customized production. He/She has excellent didactic skills and will offer courses in the Bachelor and Master programs "Industrial Engineering and Management", "Business Informatics", "Economic Mathematics", and in further programs of the faculty, like the Bachelor program "Sustainable Management" or "FÜS", an interdisciplinary course for all TU students. He/She is expected to raise third-party funds from national and international funding institutions, to engage in collaborator research with other disciplines, engineering sciences in particular, to comply with the research priorities of the faculty, and to actively take part in academic self-administration.

**Requirements:** Successful applicants must fulfil the requirements for appointment at the professor level in compliance with § 100 BerlHG (Berlin Higher Education Act), including a university degree, qualified achievements in research (doctorate), post-doctoral lecture qualification (Habilitation) or equivalent qualification and pedagogical didactic qualifications, to be proven by teaching experience and visualized in a teaching portfolio (for more information see TUB Website, quick access no. 144242).

Excellent scientific qualification demonstrated by highly ranked publications, documented experiences in third-party funding with national and international funding institutions, experience in collaborative research and interdisciplinary cooperation, integration into the (international) research community, as well as excellent didactic qualifications and teaching experience in relevant fields.

To ensure equal opportunities between women and men, applications by women with the required qualifications are explicitly desired. Qualified individuals with disabilities will be favoured.

Technische Universität Berlin is a certified family-friendly higher education institution, and its Dual Career Service offers assistance to you and your family when relocating to Berlin.
