

Senior Lecturer / Associate Professor ISOM| Business and Economics

Company Description

Waipapa Taumata Rau | The University of Auckland

The University of Auckland is New Zealand's leading university, with a turnover of \$1.3bn, including research revenue of over \$300m generated across eight diverse faculties and two research institutes. We employ more than 5400 academic and professional staff to support over 45,000 students, making us one of NZ's largest employers.

Our mission and values place a strong emphasis on both our student body and our scholarly community, and we work with both community and enterprise to advance the well-being of the peoples of Auckland and New Zealand, with a clear commitment to pursuing sustainability.

Mō tō mātou rōpū | About the team

The University of Auckland Business School (UABS) is focused on being one of the Asia-Pacific's foremost business schools, known for the relevance and impact of our research and scholarship and the quality of our people, programmes, and partnerships. It is housed in the purpose-built Sir Owen G Glenn Building, which provides state-of-the-art teaching and learning facilities. UABS is accredited by all three of the world's top business school accrediting bodies (AACSB in the US, EQUIS in Europe and AMBA in the UK), while the university as a whole is ranked in the top one percent of all universities worldwide (according to the Times Higher Education QS World University Rankings). Auckland is regularly voted as one of the best cities in the world to live and is surrounded by most stunning nature.

The Department of Information Systems and Operations Management (ISOM) is one of eight departments within the UABS. The department teaches undergraduate and graduate courses in most aspects of Operations and Supply Chain Management, and also teaches Information Systems and Business Analytics. Members of the Operations Management Disciplinary Area (OM DA) are publishing in top journals such as Production and Operations Management, Management Science, and European Journal of Operational Research. The Centre for Supply Chain Management, established in 2007, is housed within ISOM and conducts research on new problems, ideas, and solutions in supply chain management. As a geographically remote but export-oriented country, supply chain issues are critical to New Zealand.

Job Description

Te Whiwhinga mahi | The opportunity

The Department of Information Systems and Operations Management (ISOM) at The University of Auckland Business School invites applications for a Senior Lecturer/Associate Professor position in the area of Operations and Supply Chain Management. There is a preference for the individual to have an interest in business analytics (empirical OM) and service operations.

While all methodological areas within operations management will be considered, an interest in and ability to publish in elite operations journals is a key requirement for the position. Expertise in empirical research, which will help teach Business Analytics courses, or in Service Operations would be particularly welcome.

There is a preference for individuals who can interact with, and are interested in getting involved with, the Centre for Supply Chain Management as well as individuals interested in Business Analytics and/or Service Operations.

We are looking for an experienced teacher with proven abilities to use various teaching methods such as student-centered learning and mixed learning methods.

He kōrero mōu | About you
